Who are the Youth Needing Care?

The young people we take into our programs:

- are ages 14 to 19
- come from a variety of backgrounds
- have individual needs

They all have one thing in common: each youth needs to have a stable, caring family setting.

Get Started

All caregivers take part in a SAFE home study before being hired. This is a collaborative process of getting to know one another, and finding the right fit.

Join our Team!

Caregivers for The John Howard Society of North Island are part of an inclusive, supportive team, who provide life-changing services to youth in our programs. Each youth and their situation is unique, so we aim to have a diverse group of family carehomes.

Training and Support

Caregivers are introduced to the John Howard team and orientated to the youth programs, standards, and guidelines. Following this initial training, caregivers attend monthly meetings to:

- collaborate
- receive training
- learn from one another
- talk about the challenges and successes of caregiving

Caregivers are supported by our Family Resource Coordinators as well as 24-hour on-call staff.
